1. Introduction

This is an extension for Magento 1 with two main features. The first one is to limit the quantity of a product that a single account can buy (configured by specific product). The second one is to give the admin the possibility to disable the shopping cart for non-registered users.

With the first feature we want to allow shop owners to create promotions where they can limit the amount of items that a user can buy in order to attract new registered users and/or distribute the stock of a product evenly between all the customers. The second one prevents guests from using the shopping cart motivating them to register an account in the shop.

2. Installation

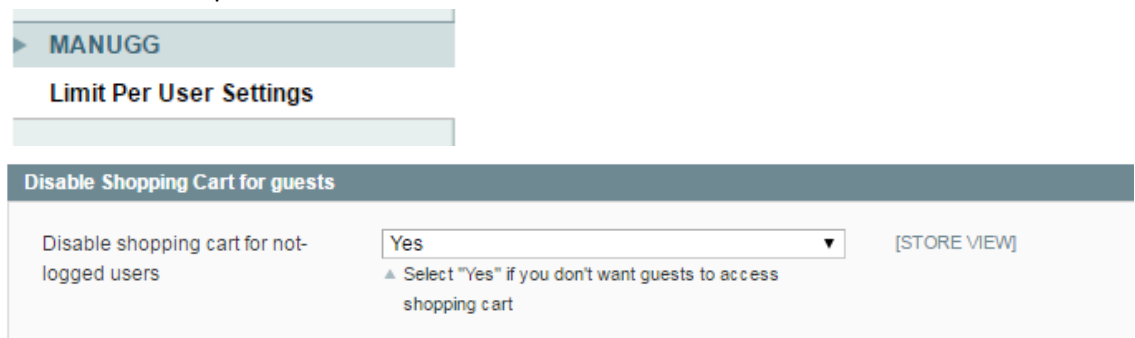

- Disable Magento Cache:
 - Go to: System -> Cache Management
 - Disable all caches
- Check that compilation is Disabled in: System -> Tools -> Compilation
- Download the tar file with the module here:
https://github.com/galaek/Manugg_LimitPerUser/blob/master/Manugg_LimitPerUser-0.1.9.tgz
- Unzip it and copy its content to /your/magento/directory/ and "merge" folders if a confirmation is required
- Logout from Magento Admin Panel and Login again
- Clear all caches
- Go to: System -> Configuration -> Manugg -> Limit per User Settings
 - Enable the configurations that you need (detailes in "Configuration" section)

3. Configuration.

In this section we are going to explain the different possible configurations for this extension.

3.1 Disable Shopping cart for guests

To disable the use of the shopping cart for registered users go to the configuration page (System -> Configuration -> Manugg -> Limit Per User Settings) and under the “Disable Shopping Cart for guests” section select “Yes” and “Save Config”. After you do this, when non-registered users try to add a product to the shopping cart, they will be redirected to the login page. After a successful login they will be redirected to the product page of the product they wanted to add in the first place.

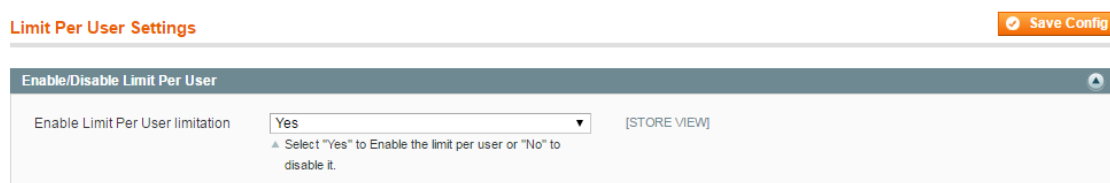

The screenshot shows the 'MANUGG' configuration page. Under the 'Limit Per User Settings' section, there is a sub-section titled 'Disable Shopping Cart for guests'. It contains a label 'Disable shopping cart for not-logged users' and a dropdown menu currently set to 'Yes'. A tooltip below the dropdown reads: 'Select "Yes" if you don't want guests to access shopping cart'. To the right of the dropdown is a '[STORE VIEW]' link.

3.2 Limit the Quantity of a product per account

In this section we can find detailed information to configure the feature to limit the quantity allowed per product and per account.

3.2.1 Enable the module feature

To Enable this feature, go to the configuration page of the module (System -> Configuration -> Manugg -> Limit Per User Settings) and select “Yes” in the section “Enable/Disable Limit per User”:

The screenshot shows the 'Limit Per User Settings' configuration page. At the top right is a 'Save Config' button. Below the section title 'Enable/Disable Limit Per User', there is a label 'Enable Limit Per User limitation' and a dropdown menu currently set to 'Yes'. A tooltip below the dropdown reads: 'Select "Yes" to Enable the limit per user or "No" to disable it.' To the right of the dropdown is a '[STORE VIEW]' link.

3.2.2 Add Product: Shopping cart messages:

- Select "Show default message" = "Yes" to show the preconfigured message
- Write a message in "Custom Message to show" in order to show a custom message when a user tries to add a product and the extension limits its quantity.
- If you don't want a custom message, leave it blank

Add Product: Shopping Cart Message	
Show default message	<div>Yes</div> <div><small>▲ Select "Yes" to show the default message, select "No" otherwise</small></div> <div>[STORE VIEW]</div>
Custom Message to show	<div>Careful! The number of products has been limited!</div> <div><small>▲ This message will be shown in the shopping cart if the extension modifies the qty of a product. Leave it blank if you don't want to show one.</small></div> <div>[STORE VIEW]</div>

3.2.3 Update Cart: Shopping Cart Messages:

- Select "Show default message" = "Yes" to show the preconfigured message
- Write a message in "Custom Message to show" in order to show a custom message when a user tries to add a product and the extension limits its quantity.
- If you don't want a custom message, leave it blank

Update Cart: Shopping Cart Message	
Show default message	<div>Yes</div> <div><small>▲ Select "Yes" to show the default message, select "No" otherwise</small></div> <div>[STORE VIEW]</div>
Custom Message to show	<div>Test upd</div> <div><small>▲ This message will be shown in the shopping cart if the extension modifies the qty of a product. Leave it blank if you don't want to show one.</small></div> <div>[STORE VIEW]</div>

3.3 Add a quantity limit to a product:

- Go to "Catalog -> Manage Products" in the Admin Panel and click the product you want.
- Go to the tab "Limit Qty Per User" and enter the limit of units that can be bought with the same account and save the product.

Limit Qty Per User	
Maximum Quantity allowed per user	<div>3</div>

4. Translation and modification

- To translate the default messages to a different language just create a copy of app/locale/es_ES/Manugg_LimitPerUser.csv and put it into your language folder (app/locale/your_CODE/Manugg_LimitPerUser.csv) and change the Spanish translation for the translation into your language.
- If you want to use/modify this code you can find it in https://github.com/galaek/Manugg_LimitPerUser/
- If you have any doubts or suggestions just contact me in GitHub! @galaek
